Professional Experience

2024-2025: Developer - Career Change at Isika, Malakoff, Nantes

6 months of theoretical learning (algorithms, architecture, OOP, data structures, etc.) and practical experience with 3 projects in a simulated professional environment. Worked in teams of 3 to 5 developers, Agile framework, GitHub versioning, with delivery cycles of 2 to 3 weeks:

12/24 - SaaS Platform for AMAPs *(Java EE, Spring, Hibernate, MySQL)*
Developed a SaaS platform enabling AMAPs to create their own websites with customizable features. Involved in functional specifications, modeling, and development.

10/24 - Management Application for an AMAP *(C#, ASP.NET MVC, MySQL)*
Developed a web application with features such as reservations, subscriptions, online store, and user management. Involved in requirement gathering, writing specifications, modeling, and development.

08/24 - Trainee Directory *(Java, JavaFX)*
Developed a trainee directory with an efficient search system: binary search tree with CRUD operations managed in a binary file.

2018-20 & 2023-24 : Digital Designer, Freelance, Nantes, Brest, Berlin

UI/UX Designer. Delivered tailored solutions. Estimation, planning, and delivery.

2020-2023 : UI/UX (Learning) Designer, ThinkOvery, Nantes

UI/UX design in digital learning: Designed and developed interactive and immersive modules in collaboration with pedagogical and audiovisual teams, on topics such as health, construction, CSR, ecology, etc., achieving over 90% learner satisfaction regarding interest and knowledge gained.

2018 : Architecte, MFA, Nantes

Managed construction projects, designed architectural plans, and implemented technological solutions.
